

Read Me file for CIS 350 Program 1

Programming Language used: C++ in Microsoft Visual Studio 2013

How to use the program:

1. After starting the program, user will be prompted to type in the input (in Capital Letters)
2. Type the desired valid input
 - Valid input must have
 - all Uppercase characters
 - an operator (+, -, *)
 - an equal sign (=)
 - a space between each word
 - no digits
 - in this format (word1 operator word2 equals word3)
 - example of valid input: SEND + MORE = MONEY
3. After the valid input is typed in, hit the Enter key and wait for the solution to appear.
 - Solution will be shown underneath the input line.
 - Example of found solution: Found Solution: 1234 + 4321 = 5555
 - Example of no solution: No Solution was found!
